

REAL WORLD

Now Ready to-go-live in Nigeria

The technology has already been successfully implemented by major international financial institutions, including HSBC, Citibank Japan, Barclays Bank in the UK, and Natixis in France. Barclays Bank, for example, has used finger vein technology (FV) to protect all business corporate account holders for over a decade.

Why Choose Environ

Environ only vendor approved by NIMC for FV. 2016 FV certification process completed in 2022.

Environ is the only CBN endorsed FV provider for digital Identity- NeFF 2019 and 2024 CBN Official No objection.

Environ is the only provider with hardware manufacturer exclusivity for Hitachi FV in Nigeria as per Hitachi to CBN confirmation.

Adopted by over 80% of Japanese banks
